

FOURMED
MEDICAL INSTRUMENTS TRADING LLC

MEDICAL PRODUCT CATALOGUE

Introduction

We manufacture and distribute a wide range of medical supplies.

We produce and supply high-quality goods, and our dedication to customer satisfaction and excellence has helped us establish a strong reputation as a reliable partner in the UAE's healthcare ecosystem.

The company's team of committed professionals, which includes logisticians and medical experts, collaborates smoothly to ensure that medical supplies are transported and distributed throughout the UAE without problem.

Our vision

To deliver outstanding quality, cutting-edge products, and the greatest customer service possible. Simple "brilliant by service" is the Fourmed policy. By offering our most important clients the top products and attentive service, we hope to become their go-to supplier automatically.

Company Profile

We produce and distribute a full line of our own-designed medical supplies and accessories. We are experts in providing primary care facilities, hospitals, and clinics with medical disposables that are integrated with the facilities' physical infrastructure. Medical supplies, audio-visual equipment, power systems, operating room control panels, medical pendants, and architectural equipment for the medical industry are all part of our area of expertise.

Innovation and design

Fourmed Medical is the only producer of premium surgical supplies and has a solid track record for creativity and design. The first airflow operating theater lamps were created by FourMed Medical for extremely clean laminar airflow rooms for surgery.

Values & strength

The desire to carry out the "Right thing" and fulfill our commitments is high among our employees. To create integrated solutions that function, we maintain very high levels of innovation, knowledge, and technical skill. In order to strengthen our relationships with both our customers and strategic partners, we want to build on the longstanding practices of reliability.

Our expertise

To be able to uphold our ideals, we maintain the highest levels of expertise. Our expertise in medical technology includes both research and service provision.
